Experience

PHP Developer - Radiant Infonet (21/11/2022 - Present)

- Developing and enhancing a B2B E-commerce platform (Navbazar).
- Creating custom authentication, CRUD (Create, Read, Update, Delete) operations, and advanced filtering features.
- Responsible for maintaining an assessment portal built in core PHP (SkillAssessment).
- Utilizing Laravel to construct authentication systems, dashboards, database schemas, and RESTful APIs.
- Project URLs for reference:
 - Navbazar B2B E-commerce Platform: <https://navbazar.com/>
 - Assessment portal: <http://learning.apprentissage.in/> and <https://skillassessment.org/>

Web Developer - Suvidha Foundation (08/2021 - 10/2021)

- Coordinated with project officers with seniority.
- Led the Front-End Team and used React.js to build web pages.
- Handled backend work, including creating a login page and utilizing phpMyAdmin to store user credentials in MySQL.
- Enabled users to log in using their Facebook and Google accounts while maintaining responsiveness and code quality.
- Website: <https://www.suvidhafoundationedutech.org/>

Web Developer - Algozini Services Pvt. Ltd. (06/2022 - 07/2022)

- Redesigned the website to create a more visually appealing, user-friendly experience.
- Conducted meetings with clients to discuss website design and functionality.
- Designed and built the website's front-end and managed the back-end, including database and server integration.
- Performed website performance tests and resolved content issues.
- Website: <http://algozini.in/>, <https://evsmart.co.in>

Web Developer - CariKture (09/2021 - 11/2021)

- Developed several websites and collaborated with senior team members on client projects.
- Assisted in writing and maintaining webpage content.
- Created SVG elements for whiteboard animation and worked on animated CSS text.
- Devised strategies to meet project deadlines and maintained clear project plans.

Project

1. GUSTO (Restaurant Website)

- Created a static restaurant website using HTML, CSS, JavaScript, Bootstrap, and Tailwind CSS.
- Website Link: [GUSTO Restaurant Website](#)

2. Resume-builder (Online Resume Builder Tool)

- Developed a user-friendly online resume builder tool.
- Technologies used include React.js, JavaScript, jQuery, JSX, Bootstrap, and Material UI.
- Tool Link: [Resume-builder](#)

3. **Chocolate & More (Restaurant Booking Website)**

- Designed and developed a dynamic restaurant reservation website.
- This web-based application enables restaurant customers to reserve tables online.
- Technologies utilized: HTML, CSS, JavaScript, Bootstrap, PHP, and MySQL.
- Website Link: [Chocolate & More Restaurant Booking](#)

4. **Car Rental Agency**

- Implemented a car rental agency platform using Laravel, PHP, HTML, Tailwind CSS, and Flowbite.
- Website Link: [Car Rental Agency Link](#)
